PRECOLLEGE DIVISION ANNUAL NOTIFICATION FERPA RIGHTS

The Family Educational Rights and Privacy Act (FERPA) affords parents/guardians of students who are less than 18 years of age and attending an elementary or secondary school certain rights with respect to the student's educational records. They are:

1. The right to inspect and review the student's educational records within 45 days of the day the School receives a request for access. Parents/guardians should submit to the Director of the Precollege Division written requests that identify the record(s) they wish to inspect. The Director or designated School official will make arrangements for access and notify the parent/guardian of the time and place where the records may be inspected.
2. The right to request the amendment of the student's educational records that the parent/guardian believes are inaccurate or misleading. Parents/guardians may ask the School to amend a record that they believe is inaccurate or misleading. They should write to the Precollege Administration, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the School decides not to amend the record as requested by the parent/guardian, the School will notify the parent/guardian of the decision and advise the parent/guardian of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to School officials with legitimate educational interest. A School official is a person employed by the institution in an administrative, supervisory, academic, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the School has contracted (such as an attorney, auditor, collection agent, or security guard); a person serving on the Board of Trustees; or when deemed appropriate, a student serving on an official committee (such as a disciplinary or grievance committee), assisting another School official in performing his or her tasks, or employed as a worker. A School official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility. In addition, the official must be able to demonstrate that the review is directly related to the student's educational welfare or the safety of the student and/or other members of the School community.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Manhattan School of Music to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:
Family Policy Compliance Office
U.S. Department of Education

Students who wish to restrict the release of such information are required to notify the Precollege Administration in writing no later than the third Saturday of the fall semester.
